Cleaning agents

Cleaning agents are substances or mixtures used for cleaning purposes in the form of liquids, powders, pastes or solid shaped bodies.

Cleaning agents are classified according to their intended use and their composition.

- Cleaning agents for hard surfaces
- Cleaning agents for textiles
- Cleaning agents for dishes
- Cleaning agents for skin
- Cleaning agents for hair
- Cleaning agents for sanitary facilities
- Cleaning agents for toilets
- Cleaning agents for kitchens
- Cleaning agents for glass
- Cleaning agents for floors
- Cleaning agents for carpets
- Cleaning agents for leather
- Cleaning agents for wood
- Cleaning agents for metal
- Cleaning agents for plastic
- Cleaning agents for rubber
- Cleaning agents for paper
- Cleaning agents for ceramics
- Cleaning agents for stone
- Cleaning agents for concrete
- Cleaning agents for asphalt
- Cleaning agents for roofs
- Cleaning agents for facades
- Cleaning agents for windows
- Cleaning agents for mirrors
- Cleaning agents for lamps
- Cleaning agents for lights
- Cleaning agents for electrical appliances
- Cleaning agents for computers
- Cleaning agents for telephones
- Cleaning agents for cars
- Cleaning agents for motorcycles
- Cleaning agents for bicycles
- Cleaning agents for boats
- Cleaning agents for aircraft
- Cleaning agents for trains
- Cleaning agents for buses
- Cleaning agents for trucks
- Cleaning agents for agricultural machinery
- Cleaning agents for construction machinery
- Cleaning agents for industrial machinery
- Cleaning agents for medical devices
- Cleaning agents for laboratory equipment
- Cleaning agents for swimming pools
- Cleaning agents for saunas
- Cleaning agents for solariums
- Cleaning agents for fitness equipment
- Cleaning agents for sports equipment
- Cleaning agents for musical instruments
- Cleaning agents for toys
- Cleaning agents for pets
- Cleaning agents for animal enclosures
- Cleaning agents for aquariums
- Cleaning agents for terrariums
- Cleaning agents for plants
- Cleaning agents for flowers
- Cleaning agents for trees
- Cleaning agents for bushes
- Cleaning agents for hedges
- Cleaning agents for lawns
- Cleaning agents for fields
- Cleaning agents for meadows
- Cleaning agents for forests
- Cleaning agents for gardens
- Cleaning agents for parks
- Cleaning agents for cemeteries
- Cleaning agents for graves
- Cleaning agents for tombstones
- Cleaning agents for memorials
- Cleaning agents for monuments
- Cleaning agents for statues
- Cleaning agents for fountains
- Cleaning agents for ponds
- Cleaning agents for lakes
- Cleaning agents for rivers
- Cleaning agents for streams
- Cleaning agents for waterfalls
- Cleaning agents for springs
- Cleaning agents for wells
- Cleaning agents for boreholes
- Cleaning agents for water towers
- Cleaning agents for water pipes
- Cleaning agents for sewers
- Cleaning agents for drains
- Cleaning agents for gutters
- Cleaning agents for downpipes
- Cleaning agents for roof gutters
- Cleaning agents for chimneys
- Cleaning agents for ventilation systems
- Cleaning agents for air conditioning systems
- Cleaning agents for heating systems
- Cleaning agents for boilers
- Cleaning agents for radiators
- Cleaning agents for pipes
- Cleaning agents for valves
- Cleaning agents for pumps
- Cleaning agents for motors
- Cleaning agents for generators
- Cleaning agents for transformers
- Cleaning agents for switchgear
- Cleaning agents for cables
- Cleaning agents for lines
- Cleaning agents for antennas
- Cleaning agents for satellite dishes
- Cleaning agents for radar systems
- Cleaning agents for navigation systems
- Cleaning agents for GPS devices
- Cleaning agents for cameras
- Cleaning agents for video cameras
- Cleaning agents for surveillance cameras
- Cleaning agents for alarm systems
- Cleaning agents for sensors
- Cleaning agents for measuring instruments
- Cleaning agents for scales
- Cleaning agents for clocks
- Cleaning agents for watches
- Cleaning agents for jewelry
- Cleaning agents for glasses
- Cleaning agents for sunglasses
- Cleaning agents for contact lenses
- Cleaning agents for hearing aids
- Cleaning agents for prosthetics
- Cleaning agents for orthopedic devices
- Cleaning agents for wheelchairs
- Cleaning agents for walking aids
- Cleaning agents for crutches
- Cleaning agents for canes
- Cleaning agents for rollators
- Cleaning agents for strollers
- Cleaning agents for baby carriages
- Cleaning agents for car seats
- Cleaning agents for child seats
- Cleaning agents for booster seats
- Cleaning agents for high chairs
- Cleaning agents for changing tables
- Cleaning agents for cribs

Cleaning wipes

Cleaning wipes are pre-moistened wipes used for cleaning surfaces. They are typically made of nonwoven fabric and contain a cleaning solution.

C18 H34 O2

Cleaning spray

Cleaning spray is a liquid cleaning agent that is applied to surfaces using a spray bottle. It is used to clean a variety of surfaces, including countertops, floors, and windows.

C18 H34 O2

Drying Cleaning

Dry cleaning is a process of cleaning clothes and other fabrics using a chemical solvent instead of water. It is used to clean delicate fabrics that cannot be washed in water, such as silk, wool, and leather.

C18 H34 O2

Cleaning cloths

Cleaning cloths are used to clean surfaces by wiping them with a damp cloth. They are typically made of microfiber or cotton and can be used with water or a cleaning solution.

C18 H34 O2

Air tin

Air tin is a type of cleaning agent that is used to clean electronic devices. It is a liquid that is sprayed onto the device and then wiped away with a cloth.

C18 H34 O2

Drying spray

Drying spray is a type of cleaning agent that is used to dry surfaces after they have been cleaned. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Cognitive methoprene

Cognitive methoprene is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray isohyani

Spray isohyani is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Chlorine

Chlorine is a powerful cleaning agent that is used to disinfect surfaces and kill bacteria. It is a gas that is dissolved in water and then applied to the surface.

C18 H34 O2

Petroleum distillates

Petroleum distillates are a type of cleaning agent that is used to clean surfaces by removing dirt and grime. They are liquids that are applied to the surface and then wiped away with a cloth.

C18 H34 O2

Concentrate de nettoyage

Concentrate de nettoyage is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray de nettoyage

Spray de nettoyage is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Tueillet rhizosphere

Tueillet rhizosphere is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray nettoyant

Spray nettoyant is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Chlorothalonil-based

Chlorothalonil-based is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Paraffin-hydrocarbon

Paraffin-hydrocarbon is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray nettoyant

Spray nettoyant is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Chlorothal-dimethyl

Chlorothal-dimethyl is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Petroleum distillates

Petroleum distillates are a type of cleaning agent that is used to clean surfaces by removing dirt and grime. They are liquids that are applied to the surface and then wiped away with a cloth.

C18 H34 O2

Paraffin oil

Paraffin oil is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray net

Spray net is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Hydrocarbon solvents

Hydrocarbon solvents are a type of cleaning agent that is used to clean surfaces by removing dirt and grime. They are liquids that are applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray detergent

Spray detergent is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Spray detergent

Spray detergent is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Cyanazine

Cyanazine is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Concentrated detergent

Concentrated detergent is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray detergent

Spray detergent is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.

C18 H34 O2

Cyanazine

Cyanazine is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Cyanazine

Cyanazine is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Porcelain air tin

Porcelain air tin is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is applied to the surface and then wiped away with a cloth.

C18 H34 O2

Spray net

Spray net is a type of cleaning agent that is used to clean surfaces by removing dirt and grime. It is a liquid that is sprayed onto the surface and then wiped away with a cloth.
